Preparation Students for Life

Hughes STEM High School offers your child an incomparable education that will help them go far. We are a nationally accredited, Ohio-designated STEM school serving grades 7-12 in Clifton Heights.

For the 2021-22 school year, we will be back and stronger than ever with in-person learning five days a week and established safety protocols. Your child will experience our:

• Robust STEM program, featuring immersive courses for grades 7-10 and the opportunity to major in health sciences, our Zoo Academy with plant and animal sciences, information technology or engineering in grades 11 and 12 through career-based learning and Ohio industry credentialing programs.

• Opportunities to become well-versed in the technology of tomorrow, earn college credits, graduate with honors and obtain real world experience through our various internships.

• Extracurricular programming in athletes, the arts and clubs designed to meet the voices of our students.
